

HASHG PORTFOLIO — FINAL CONTENT & CLIENT UPDATE

Existing portfolio:

<https://hg-vni.netlify.app/>

Please **improvise and upgrade** the existing portfolio rather than rebuilding it from scratch.

Keep the existing visual language, strongest layouts, relevant project visuals and overall portfolio structure wherever they work well.

The key change is to make the portfolio more **business-outcome, strategy and consulting focused**.

CLIENTS TO RETAIN

The final portfolio should contain ONLY these 8 client/consulting case studies:

Existing HashG Work

1. **LiveWell Diabetes & Heart Care**
2. **Alphahead Motorcycle Gear**
3. **Fit & Lift / IRONFORM**
4. **Samatva Yoga & Integrative Wellness Center**
5. **Strategic Consultants**

New Consulting Experience

6. **Niravath Group**
 7. **Envirro Green**
 8. **Saga Architectural & Design Concepts**
-

REMOVE FROM EXISTING PORTFOLIO

Remove:

- **Mysuru BigTech Show**
- Other event/showcase references

- Client/brand projects outside the above 8
- Generic filler content
- Repetitive project sections
- Anything that does not strengthen the business-growth / consulting positioning

Do not unnecessarily remove the existing design structure.

CASE STUDY FORMAT

For all 8 engagements, present the work around:

FINAL PORTFOLIO MESSAGE

Retain/improve the existing HashG positioning and make the portfolio communicate:

HASHG

Growth Systems Built Around Business Outcomes

Brand Strategy | Digital | Creative | Performance | AI | Automation

The portfolio should demonstrate that HashG works beyond content/marketing execution — across:

Business Strategy → Brand → Digital → Growth → Performance → Systems

FINAL EDITING DIRECTION

Keep:

The existing portfolio's strongest design, structure, visual assets and the 5 selected existing clients.

Remove:

Mysuru BigTech Show, irrelevant events, all other client/project entries, filler and repetitive content.

Add:

Niravath Group, Enviro Green and Saga Architectural & Design Concepts as consulting-led case studies.

Reframe:

Every retained client around **Business Challenge → HashG Contribution → Deliverables → Business Impact**.

Do not:

Invent metrics, outcomes or scope.

Do:

Use your judgement to improve the copy, layout, visual hierarchy and presentation so the existing portfolio feels substantially more credible and polished for high-value prospects such as **Marino**.
